

Product information sheet

Product line

Usage
Version
Assembly

LED-Sign

Emergency lighting
Escape sign
Three-sided Pendant

Width 300 / 400 mm

Pictogram

Symbol
Colour
Luminance
Visibility distance

according to DIN 4844-1, ASR 1.3 or ISO 3864
according to ISO 3864
according to DIN EN1838
according to DIN EN1838

Visibility distances:

300x150 mm	30 m
400x200 mm	40 m

Light source

Type
Durability of the LEDs

white LEDs
approx. 100,000h at 25°C

Power supply

Input voltage
Input frequency
Typical power consumption
Storage temperature
Operating temperature
Protection class
IP rating

100V ... 240V +/-10% AC und DC
50Hz .. 400Hz and DC
300 mm 1,5W / 400 mm 6W
-20 .. + 30°C
-0 .. + 40°C
1
IP40

Battery backup (optional)

Battery backup time
Battery life expectancy
Test triggering
Test result

>3 hours
approx. 500 load cycles
annually by means of a magnetic bar,
automatic weekly self-test
displayed by the status LED

Revision 001-02/2010
